Community Service is defined as any volunteer activity that benefits the community, i.e. the student receives no pay or other credit for work done. This can include volunteer work at church, Portland Christian Schools, the public library, the zoo, National parks, hospitals, non-profit organizations, summer camps, mission trips, etc. Helping relatives, family, and friends is important but should be considered an act of love. These ventures will **NOT** be accepted as community service unless given prior approval.
